

IT'S ROCKET SCIENCE

FOR OUR YOUNG EXPLORERS

We make the world of rockets, flight and space science extraordinarily fun and achievable for **all ages and abilities**. Our customised water rocket adventures provide hands on engaging programs, fully facilitated to completely cater for school incursions with the rare opportunity to be **a rocket scientist for the day in a fun, safe and empowering educational environment!**

Escape the everyday and experience the exclusive thrill to build and fly your own water propelled bottle rocket over 80 metres high.

WE PROVIDE...

- Workshops are 90 minutes with a maximum of 30 participants. For larger numbers, we recommend separate sessions.
- Suitable for Prep – Year 6.
- Information Pack with complimentary event flyer to print and promote at your centre, email to parents and post on social media.
- Professionally facilitated.
- Interactive pull apart large-scale replicas of Saturn V rocket.
- Dynamic experiments, rocket construction guidance and pre-launch safety training (30 minutes indoors).
- Exclusive use of our specialist launch equipment with onsite technician for rocket launch fun (1hr outdoors).
- All resources, equipment and materials will be supplied.
- All workshops advocate inclusive education.
- All participants receive a mission memorabilia patch and get to take their rockets home.
- Protected by our Activity Provider Risk Assessment, Blue Cards and Public Liability Insurance.

CLUB ROCKETEERS

Our specially built OSHC program tailored to creating memorable and insightful fun packed experience where kids go away with huge smiles and loving science.
